

May the New Light that is here NOW speak clearly to your heart.

May you know the bliss of your unique, Divine Purpose.

**May you trust the nature of your Divine Essence
and allow the Light within you to come into full expression.**

**May you continue to listen and say YES
to LIFE that is beyond the ordinary.**

Welcome ~

It was a powerful Wesak event in 1999 ~ that truly initiated, activated and empowered the New Life I would step into here in these Ancient Mountains. I stood beneath the beam, witnessed by a circle of many wisdom keepers, and stepped into a new template of Self. I did not even know the fullness of what I was saying Yes to, but I was anointed and charged that day into a higher timeline of my destiny. This is a moment I will never forget, a moment I AM eternally grateful for.

The Wesak is an annual Celebration of the Light. It originates in Buddhism, but is a worldwide recognition of the Power of the Light towards Enlightenment and Rebirth. The Wesak marks the time of pivotal moments.

I feel called to hold a Sophia Council on Sunday 5/31, of 2026. For those of you who have participated in years past, or for those of you feeling the current magnetics around a New Feminine Power emanating from our Sun, Sophia is Feminine Wisdom, a guiding force of the Mother of us All, the metaphoric umbilical cord between the human soul and the divine. I AM just feeling this beautiful, RISE with massive change initiated this month by the Wesak and 2 Full Moons. The Wesak entered in with the Full Moon on 5/1 - adding to the already significant energy forces present all month, ending with another Full Moon on the 31st. The container that day will be FULL and pregnant with support, love, peace, forgiveness and CHANGE.

This gathering will be on a vortex summit and will include ritual that you will all be a part of creating and participating in. This 6000 ft summit is one of 7 major grids in WNC and consists of 2 powerful, electrical vortexes composed entirely of quartz. The quartz inside this mountain has been programmed by the Earth Mother, with incredibly ancient memory of the geological changes and mountain building events that formed this ancient mountain region. This summit is one of few vortexes that are fully awakened to its power.

Breathe into this information in the context of 2026 and what we are rapidly progressing through. Sitting and holding ceremony on this summit will greatly

facilitate the tremendous foundational changes happening in the human body as we shift to a New Operating System. There is, additionally, a Mountain Deva with a sheer, transparent form, great white wings and crystal-like eyes that is an indwelling spirit force on this summit. She influences the weather and emits a powerful, ancient energy with a sound that resembles a high pitch whistle. It is enough to just sit in her Presence, which will profoundly enhance the remembrance and wisdom of Sophia within all participants.

A reminder of the New Human understanding around Sophia: She is associated and expressed through many religions - we must let all that go and feel her Essence. She is the rise within us, she is the place where the rivers meet, she is shaki, she is chi, she is convergence; she is the unification of all things, including that which is within us. She is the energy that holds the Cosmos together and the movement of the galaxies. ANY relationship we have had with Sophia, even the idea humanity has been able to discern of Her Essence ~ is just a spark of her power and purpose within the future humanity that is now birthing. She is the Golden Gate that all the Goddesses and Feminine Masters pass through. And now, in this moment in time for Earth and Humanity - she is the Central Pivot of Creation and the giver of both practical and spiritual wisdom.

Consider where you are on your path at this time, what feels powerful and what feels yet, incomplete. This is an opportunity to harness the fullness of a place, a time, an intention and a Feminine Consciousness that is forming the new power structure on this planet. Her time is NOW, as is yours!

WESAK and SOPHIA, a moment of Divine Alignment, Vision, Empowerment and Joyful Remembrance. A come as you are invitation, with the promise of transformation and liberation. And So It Is.
